

Parent and Alumni Committee

The purpose will be to promote and support YCA, the cadets, parents and alumni via various methods as determined by the committee and as we are able to implement them.

Board Members:

The board will be comprised of four or five members. Board members must be willing to serve in relatively long term positions. Seats on the board will be on a rotating basis with terms to be determined later by the board, but will probably be one or two years.

This will be the core group. The group which analyses the available options and determines the actions and direction of the committee.

Board members must be strong believers in the principles and intent of the YCA program, and be willing to serve well past the graduation of their own child. In other words, board members must be willing to take the business of the committee as they would any other charitable organization without regard to any personal benefits.

Region Stalwarts:

Region Stalwarts are volunteers who are willing to put the same efforts into the activities of the committee on a more local basis. They will serve to promote the interests of YCA in their communities. Like board members, this is a long-term position for one year or more.

There are twelve regions in the State of Georgia and we would like to have at least two to four Stalwarts per region. A breakdown of the regions is included at the end of this message.

Class Volunteers:

Class Volunteers serve on a short term basis, usually for only the duration of a particular class. Their focus will be on the promotion of YCA in their own communities and offering support to individual platoons. Although this position is short-term, it carries no less importance than the other two positions. Class Volunteers will likely be the names and faces the cadets become most familiar with.

The longevity of the terms of board members and region stalwarts are to accommodate long term planning and to provide permanence and stability.
